Dear Valued Clients,

We are writing to inform you that Wes-Har will remain open to provide our testing services unless we receive further order from the government. As we are not sure how the impact of this COVID 19 pandemic will have on the services of the couriers, a heads-up by a phone call or email is always welcome so that we can better track your package. And you will receive an email confirmation from us on the due date of your results.

Since we are not sure how this situation will change in the coming weeks/months, we will keep you informed in case we need to reduce our office hours.

Thank you for your ongoing support and for placing your trust in Wes-Har Asbestos Laboratory and Consulting Ltd.
